ABOUT AGAMANA CONSTRUCTIONS

Building a Better Way to Build.

We work with individual and corporate clients, delivering construction solutions across residential, commercial, hospitality, institutional and civil development projects.

Our approach is built around five principles:

1

Clear Planning

Understanding the project before execution begins.

2

Technical Expertise

Engineering-led construction and site execution.

3

Transparent Costing

Clear scope, specifications and commercial visibility.

4

Quality-Focused Execution

Attention to materials, workmanship & construction standards.

5

End-to-End Responsibility

One coordinated team from planning through handover.

THE AGAMANA GROUP

An Ecosystem Built Around Real Estate & Development

Agamana Constructions is part of the broader Agamana Group, bringing together complementary capabilities across the real estate and development ecosystem.

Different capabilities.
One integrated ecosystem.

WHAT WE BUILD

Spaces Designed for Different Needs

From personal residences to commercial developments, our construction capabilities are designed to adapt to the scale and purpose of each project.

RESIDENTIAL

- Individual Homes
- Villas
- Farmhouses
- Luxury Residences
- Extensions & Renovations

COMMERCIAL

- Office Spaces
- Retail Buildings
- Commercial Developments

HOSPITALITY

- Resorts
- Farm Stays
- Guest Facilities
- Community Spaces

INSTITUTIONAL

- Educational
- Corporate
- Community & Institutional Buildings

CIVIL & SITE DEVELOPMENT

- Roads
- Drainage
- Compound Walls
- Earthwork
- External Development

OUR SERVICES

From Planning to Completion

1

Design & Engineering

- Architectural coordination
- Structural engineering
- MEP coordination
- Working drawings

2

Construction

- Foundation & RCC
- Masonry
- Roofing
- Plastering
- Structural & civil works

3

Finishing

- Flooring
- Painting
- Doors & windows
- Waterproofing
- False ceilings

4

Building Services

- Electrical
- Plumbing
- Sanitary
- External services

5

Site Development

- Earthwork
- Roads
- Drainage
- Compound walls
- Landscaping & external works

6

Project Management

- Planning
- Procurement
- Vendor coordination
- Site supervision
- Quality control
- Project documentation

HOW WE BUILD

A Structured Approach to Every Project

DISCOVER

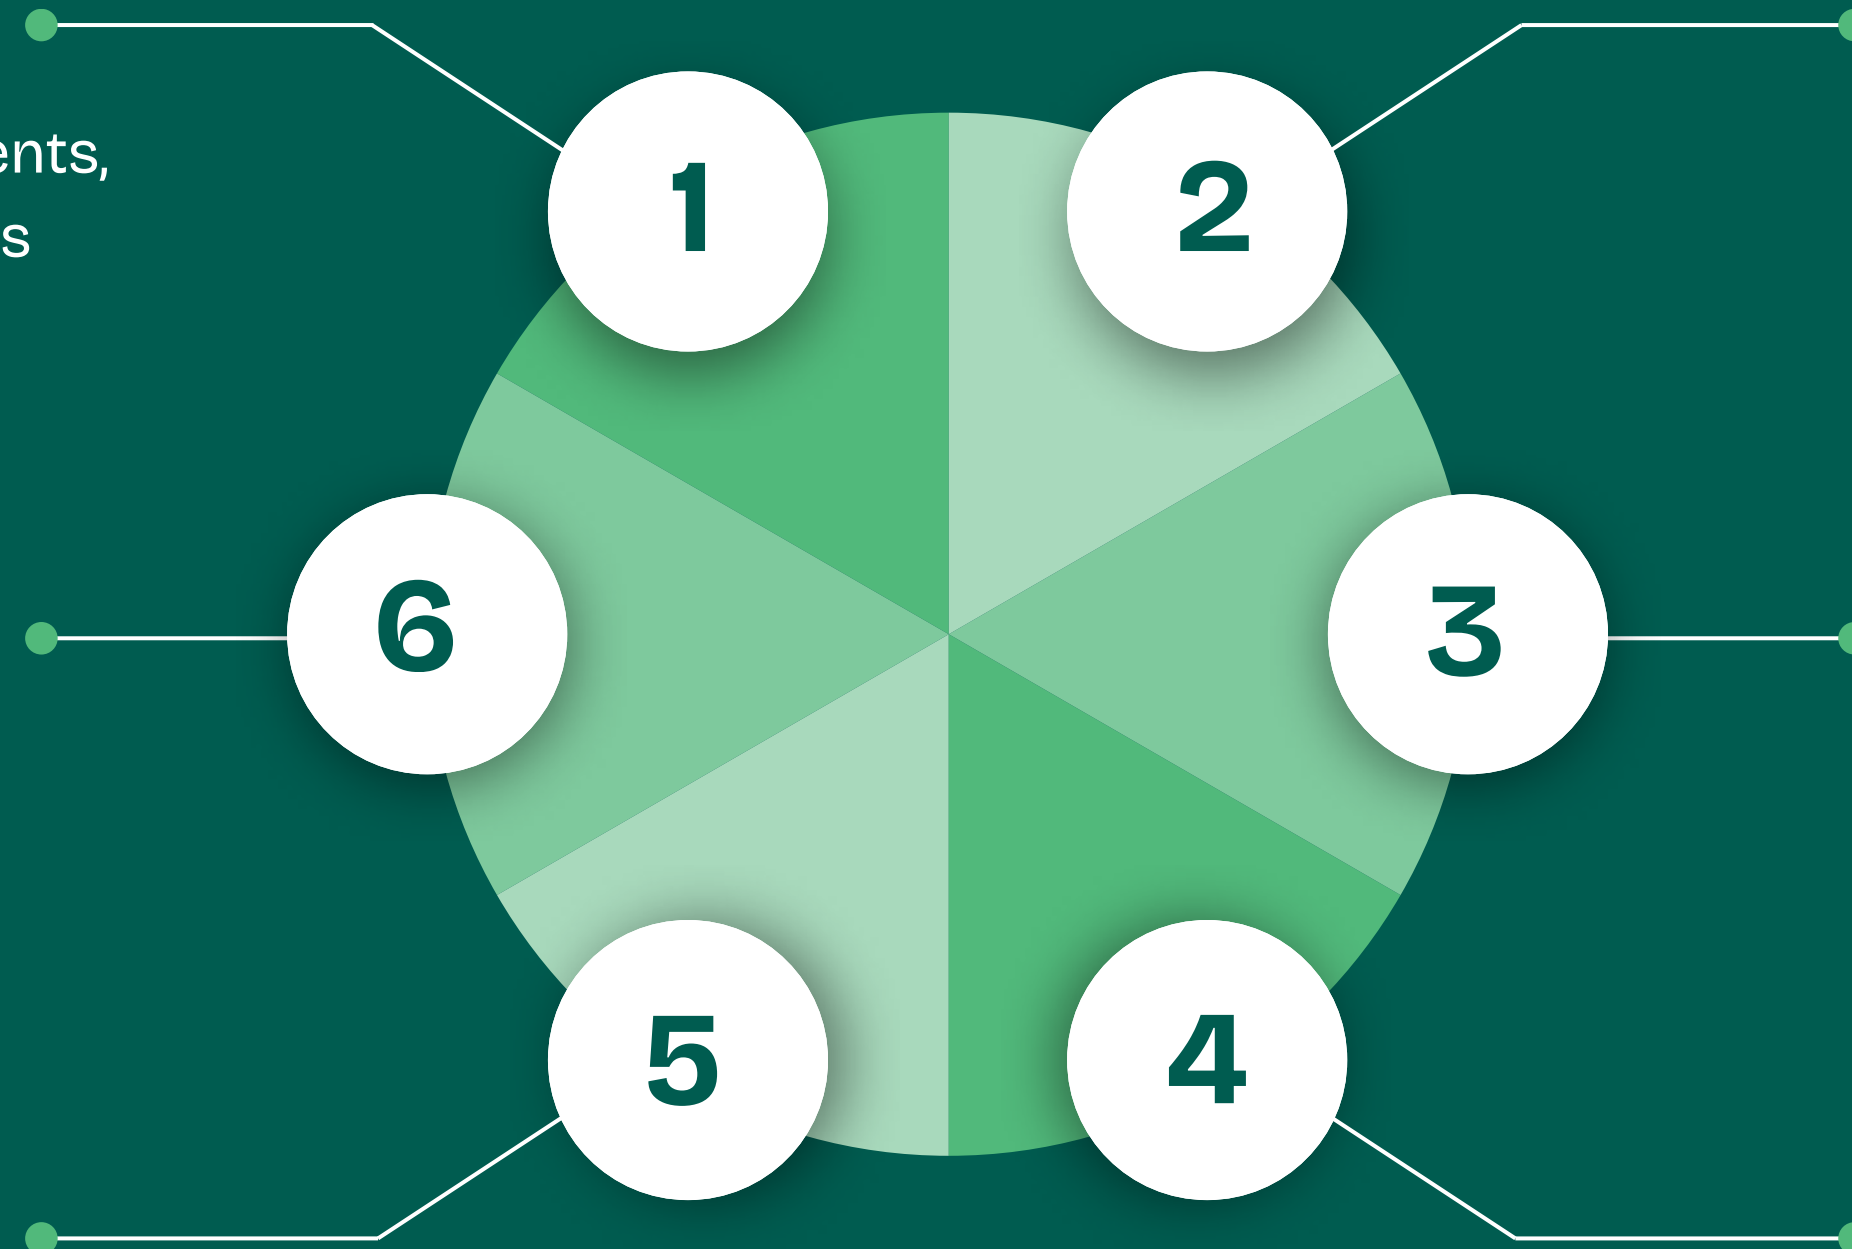

Understand your requirements, site conditions, expectations and budget.

HANDOVER

Complete finishing, inspections, documentation and final handover.

MONITOR

Track progress, quality, materials, costs and project milestones.

PLAN

Develop the design, engineering approach, scope and project plan.

ESTIMATE

Prepare the BOQ, specifications, costing and execution requirements.

BUILD

Execute the project through coordinated site teams, contractors and vendors.

PROJECT VISIBILITY

Your Project. Your Visibility.

Construction shouldn't feel like a black box. We believe clients should have visibility into how their project is progressing.

1

Progress

Regular updates on construction milestones.

2

Quality

Stage-wise inspection and quality checks.

3

Materials

Planned procurement and material tracking.

4

Costs

Clear scope, BOQ and commercial visibility.

5

Communication

A defined channel for decisions, approvals and updates.

6

Documentation

Project records maintained throughout execution.

QUALITY FRAMEWORK

QUALITY IS BUILT INTO THE PROCESS

Quality isn't something checked only at the end of construction. It needs to be considered at every stage.

MATERIALS

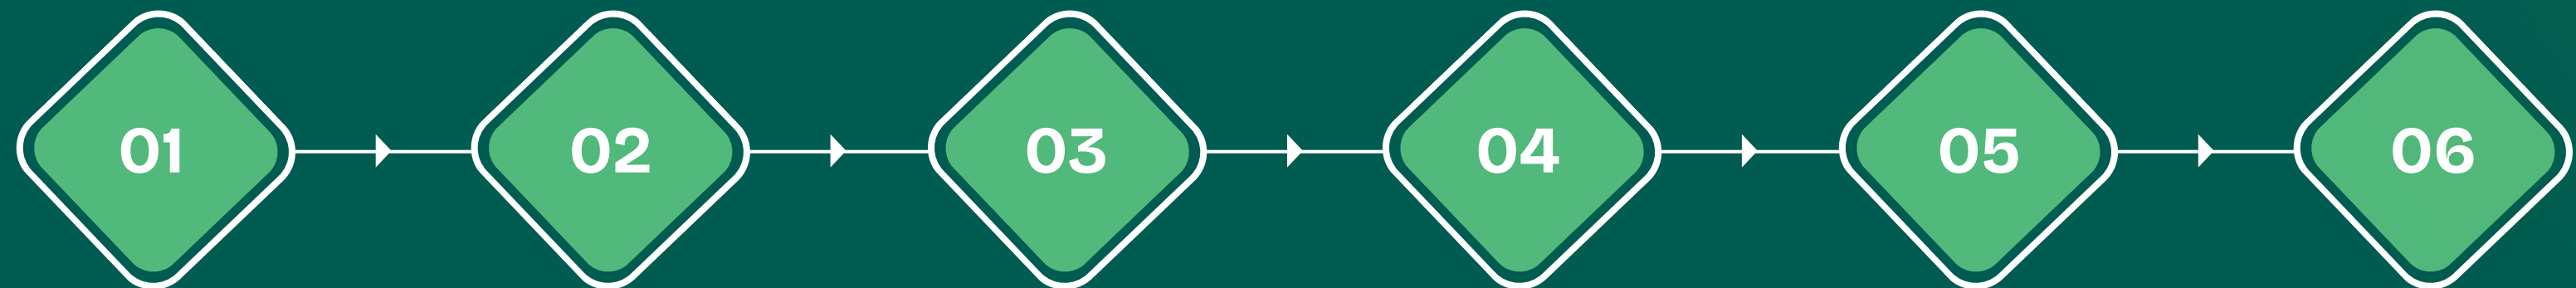

Appropriate materials selected according to project requirements and specifications.

INSPECTION

Stage-wise inspection of ongoing civil and finishing works.

DOCUMENTATION

BOQs, measurements, schedules and project records maintained systematically.

WORKMANSHIP

Execution aligned with approved drawings, specifications and construction practices.

SUPERVISION

Continuous site monitoring and coordination.

FINAL CHECK

Inspection and completion checks before handover.

OUR PEOPLE

PEOPLE BEHIND THE PROJECTS

Ashwath H.N.

Construction Lead |
Civil Engineer

Ashwath brings **8+ years of construction experience** across residential, commercial and retail projects, including high-rise developments

Sudarshan Bhat

Co-Founder |
Project Development

Sudarshan brings an **entrepreneurial and project-development perspective to Agamana**, with a focus on identifying opportunities, developing projects and building long-term value through real estate and land development.

Vinay Hegde

Co-Founder |
Business & Operations

Vinay brings experience across **business operations, technology, design and project coordination**, with a focus on building systems, managing operations and developing businesses.

WHO WE WORK WITH

BUILT AROUND YOUR REQUIREMENTS

INDIVIDUAL CLIENTS: For those looking to build

A Home

A Villa

A Farmhouse

A Renovation

CORPORATE & INSTITUTIONAL CLIENTS:

For organisations looking for:

- Commercial Spaces
- Offices
- Retail
- Hospitality
- Institutional Buildings
- Civil & Site Development

**Different capabilities.
One integrated ecosystem.**

LET'S BUILD YOUR DREAM & VISION.

Whether it's a home, a commercial space or a larger development, we believe good construction begins with clear thinking, careful planning and responsible execution.
